

**Subpart I—Individual Unit Opt-ins****§ 96.80 Applicability.**

A unit that is in the State, is not a NO<sub>x</sub> Budget unit under § 96.4, vents all of its emissions to a stack, and is operating, may qualify, under this subpart, to become a NO<sub>x</sub> Budget opt-in source. A unit that is a NO<sub>x</sub> Budget unit, is covered by a retired unit exemption under § 96.5 that is in effect, or is not operating is not eligible to become a NO<sub>x</sub> Budget opt-in source.

**§ 96.81 General.**

Except otherwise as provided in this part, a NO<sub>x</sub> Budget opt-in source shall be treated as a NO<sub>x</sub> Budget unit for purposes of applying subparts A through H of this part.

**§ 96.82 NO<sub>x</sub> authorized account representative.**

A unit for which an application for a NO<sub>x</sub> Budget opt-in permit is submitted and not denied or withdrawn, or a NO<sub>x</sub> Budget opt-in source, located at the same source as one or more NO<sub>x</sub> Budget units, shall have the same NO<sub>x</sub> authorized account representative as such NO<sub>x</sub> Budget units.

**§ 96.83 Applying for NO<sub>x</sub> Budget opt-in permit.**

(a) *Applying for initial NO<sub>x</sub> Budget opt-in permit.* In order to apply for an initial NO<sub>x</sub> Budget opt-in permit, the NO<sub>x</sub> authorized account representative of a unit qualified under § 96.80 may submit to the permitting authority at any time, except as provided under § 96.86(g):

(1) A complete NO<sub>x</sub> Budget permit application under § 96.22;

(2) A monitoring plan submitted in accordance with subpart H of this part; and

(3) A complete account certificate of representation under § 96.13, if no NO<sub>x</sub> authorized account representative has been previously designated for the unit.

(b) *Duty to reapply.* The NO<sub>x</sub> authorized account representative of a NO<sub>x</sub> Budget opt-in source shall submit a complete NO<sub>x</sub> Budget permit application under § 96.22 to renew the NO<sub>x</sub> Budget opt-in permit in accordance with § 96.21(c) and, if applicable, an up-

dated monitoring plan in accordance with subpart H of this part.

**§ 96.84 Opt-in process.**

The permitting authority will issue or deny a NO<sub>x</sub> Budget opt-in permit for a unit for which an initial application for a NO<sub>x</sub> Budget opt-in permit under § 96.83 is submitted, in accordance with § 96.20 and the following:

(a) *Interim review of monitoring plan.* The permitting authority will determine, on an interim basis, the sufficiency of the monitoring plan accompanying the initial application for a NO<sub>x</sub> Budget opt-in permit under § 96.83. A monitoring plan is sufficient, for purposes of interim review, if the plan appears to contain information demonstrating that the NO<sub>x</sub> emissions rate and heat input of the unit are monitored and reported in accordance with subpart H of this part. A determination of sufficiency shall not be construed as acceptance or approval of the unit's monitoring plan.

(b) If the permitting authority determines that the unit's monitoring plan is sufficient under paragraph (a) of this section and after completion of monitoring system certification under subpart H of this part, the NO<sub>x</sub> emissions rate and the heat input of the unit shall be monitored and reported in accordance with subpart H of this part for one full control period during which monitoring system availability is not less than 90 percent and during which the unit is in full compliance with any applicable State or Federal emissions or emissions-related requirements. Solely for purposes of applying the requirements in the prior sentence, the unit shall be treated as a "NO<sub>x</sub> Budget unit" prior to issuance of a NO<sub>x</sub> Budget opt-in permit covering the unit.

(c) Based on the information monitored and reported under paragraph (b) of this section, the unit's baseline heat rate shall be calculated as the unit's total heat input (in mMBtu) for the control period and the unit's baseline NO<sub>x</sub> emissions rate shall be calculated as the unit's total NO<sub>x</sub> emissions (in lb) for the control period divided by the unit's baseline heat rate.

(d) After calculating the baseline heat input and the baseline NO<sub>x</sub> emissions rate for the unit under paragraph
